

## SYSTEM 4500

### TILT-TURN, HOPPER, AWNING, FIXED

The System 4500 tilt-turn design offers builders and architects a very unique product for both residential and commercial markets. This versatile design is three windows in one: a traditional casement in the turn position, secure top ventilation in the tilt position and an elegant picture window when closed. The hopper, awning and picture window designs have achieved an HC-100 rating. Available in white or beige PVC, this system can also be laminated with solid color or wood-grain foils.

- 1 Unique tilt-turn hardware**  
Operates in both top-venting and inward-swinging positions
- 2 Multiple locking points and dual weather seals**  
Provide optimum air and water tightness
- 3 Large chambers**  
Accommodate large reinforcements required in heavy commercial applications
- 4 Accessory groove**  
Accepts a variety of accessories such as brickmolds, extension jambs and T-mullions
- 5 Up to 1 3/8" (35 mm) glass**  
Increases both energy efficiency and acoustical properties (up to STC 43)
- 6 3 1/4" (82.5 mm) frame depth**  
Allows for hassle-free replacement installation

#### Performance Summary

AAMA: up to AP-HC100  
CSA A440: A3 B7 C5/C5  
U-factor down to 0.30
